Dear Principal,

The Hong Kong College of Psychiatrists
Public Awareness Committee
Mental Health Youth Ambassador Programme
cum Public Lecture on Stress Management

Mental health of students has been a major concern in recent years, especially with the recent news and discussions in the community. On behalf of the Public Awareness Committee of The Hong Kong College of Psychiatrists, I am pleased to announce that we would be launching the Mental Health Youth Ambassador Programme. The programme targets secondary school students studying Form 3 or above, and aims to (i) promote the awareness of mental health and understanding of various mental illnesses; (ii) reduce the stigma associated with mental illness and offer opportunities of personal contact with persons-in-recovery; and (iii) to offer students opportunities to participate in and organize programmes for the promotion of mental health and wellbeing of persons-in-recovery. All participants who completed the respective levels of the programme would receive a certificate issued by the Hong Kong College of Psychiatrists. Participants who completed the whole programme would have the opportunity to attach to the Department of Psychiatry of Universities or Hospitals. Participants with outstanding performance would be selected for a mentorship programme with psychiatrists as mentors.

The launching ceremony of Mental Health Youth Ambassador Programme and public lecture on Stress Management “壓力大無畏” would be held on 23 April 2016 at Central Library.

Enclosed please find the poster of the program. We would like to seek your kind assistance to post up the poster for your students' interest. Students who are interested shall register to the Hong Kong College of Psychiatrists by themselves. Parents' consent forms would be delivered to students interested in the programme and collected before they participate in future activities.

Thank you for your kind assistance.

Yours faithfully,

Dr. Mak Wing-chit, Ivan
